Preface

We are proud to present the proceedings of the 14th International Conference on Entertainment Computing (ICEC 2015). After Brazil (2013) and Australia (2014), ICEC was back in Europe, for the first time in Norway.

The conference was hosted in Trondheim, from September 30 to October 2, by NTNU, The Norwegian University of Science and Technology. As a result of a university merge, starting with January 2016, NTNU will be the biggest university in Norway with circa 38,000 students. Thanks to NTNU, the research institute Sintef and an ecosystem of knowledge intensive companies, Trondheim is one of the main Nordic centers of innovation, research, and development.

Entertainment computing is a diverse field bringing together computer science, social and cultural sciences, psychology, art, design, and many other disciplines.

Therefore, entertainment computing is one focal point of exchange between these different disciplines. ICEC 2015 aimed at celebrating the multidisciplinary nature of the area, and this is well demonstrated in this edited book by the variety and scientific quality of this year’s program.

Overall, we received more than 100 unique submissions, from 31 countries, demonstrating the global interest for this research area and for ICEC 2015. Out of the total submissions, after a rigorous peer-review and meta-review process, we accepted 26 full papers and six short papers. To complement the oral presentations, the ICEC 2015 program also included six demos and 16 posters. Moreover, the main conference program was complemented by five workshops and two tutorials focusing on special topics of interest. In summary, ICEC 2015 offered an exciting program that provided an excellent overview of the state of the art in entertainment computing and an occasion for bringing research forward and creating new networks.

We are very proud of the final selection of papers, which would not have been possible without the effort and support of our excellent Program Committee, including 53 top researchers from 23 countries. We would like to thank all members of the Program Committee and all additional external reviewers for their work and commitment.

We thank our keynote speakers Florian “Floyd” Mueller, Yvonne Rogers, Alf Inge Wang, and Axel Tidemann.

Finally, this event would not have been possible without the help of all the great people who assisted us at NTNU, including our technical staff and student volunteers. We would like to specifically thank NTNU Videre for support with local organization and registration, the technical and administrative group at the Department of Computer and Information Science for the technical support before and during the conference, Tore R. Jørgensen for his support with the
conference organization, and Francesco Gianni for his aid in the editing process of the proceedings. We also thank our sponsors and supporting organizations.

July 2015

Konstantinos Chorianopoulos
Monica Divitini
Jannicke Baalsrud Hauge
Letizia Jaccheri
Rainer Malaka
Organization

General Chair
Letizia Jaccheri  Norwegian University of Science and Technology (NTNU), Norway

General Co-chair
Konstantinos Chorianopoulos  Ionian University, Greece

Program Co-chairs
Monica Divitini  Norwegian University of Science and Technology (NTNU), Norway
Rainer Malaka  University of Bremen, Germany

Local Chair
Sobah Abbas Petersen  Sintef, Norway

Industry and Sponsor Chair
Andrew Perkis  Norwegian University of Science and Technology (NTNU), Norway

Web and Publicity Chair
Alf Inge Wang  Norwegian University of Science and Technology (NTNU), Norway

Doctoral Consortium Chair
Helmut Hlavacs  University of Vienna, Austria
VIII Organization

Workshop Chair

Jannicke Baalsrud Hauge  
BIBA, University of Bremen, Germany;  
Kungliga Tekniska Högskolan, Sweden

Grand Challenge Co-chairs

Aisling Kelliher  
Carnegie Mellon University, USA
Andrew Perkis  
Norwegian University of Science  
and Technology (NTNU), Norway

Conference Advisory Committee

Matthias Rauterberg  
Eindhoven University of Technology,  
The Netherlands
Sydney Fels  
The University of British Columbia, Canada
Hyun Seung Yang  
KAIST, Republic of Korea

Program Committee

Nikos Avouris  
University of Patras, Greece
Sander Bakkes  
University of Amsterdam, The Netherlands
Christoph Bartneck  
University of Canterbury, New Zealand
Rafael Bidarra  
Delft University of Technology,  
The Netherlands
Staffan Björk  
Chalmers University of Technology  
and University of Gothenburg, Sweden
Pedro González Calero  
Complutense University of Madrid, Spain
Luis Carriço  
University of Lisbon, Portugal
Marc Cavazza  
University of Teesside, UK
Luca Chittaro  
HCI Lab, University of Udine, Italy
Sung-Bae Cho  
Yonsei University, Korea
Paolo Ciancarini  
University of Bologna; Italy
Esteban Clua  
Universidade Federal Fluminense, Brazil
Kendra Cooper  
The University of Texas at Dallas, USA
Nuno N. Correia  
Goldsmiths, University of London, UK
Frank Dignum  
Utrecht University, The Netherlands
Ines Di Loreto  
University of Troyes, France
Jerome Dupire  
CEDRIC/CNAM, France
Owen Noel Newton Fernando  
NTU (Nanyang Technological University),  
Singapore

Full Papers

A Mobile Game Controller Adapted to the Gameplay and User's Behavior Using Machine Learning .................................. 3
Leonardo Torok, Mateus Pelegrino, Daniela G. Trevisan, Esteban Clua, and Anselmo Montenegro

A Participatory Approach for Game Design to Support the Learning and Communication of Autistic Children .................. 17
Thiago Porcino, Daniela Trevisan, Esteban Clua, Marcos Rodrigues, and Danilo Barbosa

A Real Time Lighting Technique for Procedurally Generated 2D Isometric Game Terrains ........................................ 32
Érick O. Rodrigues and Esteban Clua

Adaptive Automated Storytelling Based on Audience Response ....... 45
Augusto Baffa, Marcus Poggi, and Bruno Feijó

ADITHO – A Serious Game for Training and Evaluating Medical Ethics Skills .......................................................... 59
Cristian Lorenzini, Claudia Faita, Michele Barsotti, Marcello Carrozzino, Franco Tecchia, and Massimo Bergamasco

A Battle of Wit: Applying Computational Humour to Game Design .... 72
Dormann Claire

Advanced Dynamic Scripting for Fighting Game AI .................. 86
Kevin Majchrzak, Jan Quadflieg, and Günter Rudolph

Applied Games – In Search of a New Definition ....................... 100
Ralf Schmidt, Katharina Emmerich, and Burkhard Schmidt

Classification of Player Roles in the Team-Based Multi-player Game Dota 2 .............................................................. 112
Christoph Eggert, Marc Herrlich, Jan Smeddinck, and Rainer Malaka

Design-Based Learning in Classrooms Using Playful Digital Toolkits .... 126
K.J. Scheltenaar, J.E.C. van der Poel, and M.M. Bekker

Embedding and Implementation of Quantum Computational Concepts in Digital Narratives ........................................... 140
Nikitas M. Sgouros
EmotionBike: A Study of Provoking Emotions in Cycling Exergames 
Larissa Müller, Sebastian Zagaria, Arne Bernin, Abbes Amira,
Naeem Ramzan, Christos Grecos, and Florian Vogt

Evaluating the Impact of Highly Immersive Technologies and Natural Interaction on Player Engagement and Flow Experience in Games
Raffaello Brondi, Leila Alem, Giovanni Avveduto, Claudia Faita,
Marcello Carrozzino, Franco Tecchia, and Massimo Bergamasco

Evolutionary Changes of Pokemon Game: A Case Study with Focus On Catching Pokemon
Chetprayoon Panumate, Shuo Xiong, Hiroyuki Iida,
and Toshiaki Kondo

Game-Based Interactive Campaign Using Motion-Sensing Technology
Alf Inge Wang, Mari Hansen Asplem, Mia Aasbakken,
and Letizia Jaccheri

Gamification and Family Housework Applications
Anne Berit Kigen Bjering, Marikken Høiseth, and Ole Andreas Alsos

IdleWars: An Evaluation of a Pervasive Game to Promote Sustainable Behaviour in the Workplace
Evangelos Tolias, Enrico Costanza, Alex Rogers, Benjamin Bedwell,
and Nick Banks

Interactive Digital Gameplay Can Lower Stress Hormone Levels in Home Alone Dogs — A Case for Animal Welfare Informatics
Annika Geurtsen, Maarten H. Lamers, and Marcel J.M. Schaaf

KINJIRO: Animatronics for Children’s Reading Aloud Training
Hisanao Nakadai, Lee Seung Hee, Munee Kitajima,
and Junichi Hoshino

Rogue-Like Games as a Playground for Artificial Intelligence – Evolutionary Approach
Vojtech Cerny and Filip Dechterenko

Software Architectures and the Creative Processes in Game Development
Alf Inge Wang and Njål Nordmark

Storytelling Variants: The Case of Little Red Riding Hood
Edirlei Soares de Lima, Antonio L. Furtado, and Bruno Feijó

Tags You Don’t Forget: Gamified Tagging of Personal Images
Nina Runge, Dirk Wenig, Danny Zitzmann, and Rainer Malaka
The Design Process Continues: Attending Experiential Values up to Version 1.0 ...................................................... 315
   Rikard Lindell

Three Apps for Shooting Sports: The Design, Development, and Deployment ..................................................... 329
   Agnieszka Besz, Maciej Górnicki, Toni Heinonen, Tapani Kiikeri, Ilkka Ratamo, Mika Luimula, Taisto Suominen, Aki Koponen, Jouni Saarni, Tomi “bgt” Suovuo, and Jouni Smed

Yasmine’s Adventures: An Interactive Urban Experience Exploring the Sociocultural Potential of Digital Entertainment .................... 343
   Valentina Nisi, Mara Dionisio, Julian Hanna, Luis Ferreira, and Nuno Nunes

Short Papers

Asterodrome: Force-of-Gravity Simulations in an Interactive Media Theater ................................................................. 359
   Marcel Köster, Michael Schmitz, Soenke Zehle, and Burkhard Detzler

Exploring the Importance of “Making” in an Educational Game Design ........................................................................... 368
   Michail N. Giannakos, Varvara Garneli, and Konstantinos Chorianopoulos

Simple Games – Complex Emotions: Automated Affect Detection Using Physiological Signals ........................................... 375
   Thomas Friedrichs, Carolin Zschippig, Marc Herrlich, Benjamin Walther-Franks, Rainer Malaka, and Kerstin Schill

Studying an Author-Oriented Approach to Procedural Content Generation through Participatory Design ......................... 383
   Rui Craveirinha and Licinio Roque

The Role of Embarrassment to Shape Public Interactions ............... 391
   Licia Calvi

Towards Smart City Learning: Contextualizing Geometry Learning with a Van Hiele Inspired Location-Aware Game ............... 399
   Matthias Rehm, Catalin Stan, Niels Peter Wöldike, and Dimitra Vasilarou
Posters

A Simultaneous, Multidisciplinary Development and Design Journey – Reflections on Prototyping ........................................ 409
Achim Gerstenberg, Heikki Sjöman, Thov Reime, Pekka Abrahamsson, and Martin Steinert

A Role-Switching Mechanic for Reflective Decision-Making Game ...... 417
Thomas Constant, Axel Buendia, Catherine Rolland, and Stéphane Natkin

Adaptation to TV Delays Based on the User Behaviour towards a Cheating-Free Second Screen Entertainment ....................... 424
Rui Neves Madeira, Pedro Centieiro, and Nuno Correia

Exploring Deep Content in Physical Rehabilitation Games .......... 433
Niels Quinten, Steven Malliet, and Karin Coninx

Games, from Engaging to Understanding: A Perspective from a Museum of Computing Machinery ................................. 439
Giovanni A. Cignoni, Leonora Cappellini, and Tommaso Mongelli

Interactive Painterly Rendering for Mobile Devices .................. 445
Dongwann Kang and Kyunghyun Yoon

Lessons from Practicing an Adapted Model Driven Approach in Game Development ....................................................... 451
Hong Guo, Hallvard Trætteberg, Alf Inge Wang, Shang Gao, and Maria Letizia Jaccheri

Measuring Latency in Virtual Reality Systems ......................... 457
Kjetil Raaen and Ivar Kjellmo

MindSpace: A Cognitive Behavioral Therapy Game for Treating Anxiety Disorders in Children .......................... 463
Barbara Göbl, Helmut Hlavacs, Jessica Hofer, Isabelle Müller, Hélen Müllner, Claudia Schubert, Halina Helene Spallek, Charlotte Rybka, and Manuel Sprung

Noise Modeler: An Interactive Editor and Library for Procedural Terrains via Continuous Generation and Compilation of GPU Shaders ................................................. 469
Johan K. Helsing and Anne C. Elster

Serious Games: Is Your User Playing or Hunting? .................... 475
Sofya Baskin, Sharon Anavi-Goffer, and Anna Zamansky

Space for Seriousness? Player Behavior and Motivation in Quiz Apps ... 482
Heinrich Söbbe
Spheres of Play: Designing Games and Interfaces for Media Architectures ........................................... 490
   Michael Schmitz, Dominik Scholl, Julian Saraceni, Pascal Klein, Carsten Blaser, Jorge Olmeda, Soenke Zehle, and André Miede

Supporting the Collaboration between Programmers and Designers
Building Game AI ....................................... 496
   Ismael Sagredo-Olivenza, Marco Antonio Gómez-Martín, and Pedro A. González-Calero

The Impact of Sensor Noise on Player Experience in Magic Window
Augmented Reality Aiming Games ................................ 502
   Farjana Z. Eishita and Kevin G. Stanley

Towards a Framework for Gamification-Based Intervention Mapping in mHealth ................................................ 508
   Helf Christopher, Patrick Zwickl, Helmut Hlavacs, and Peter Reichl

Demonstrations

   [self.]: Realization/Art Installation/Artificial Intelligence:
A Demonstration ................................................ 517
   Axel Tidemann and Øyvind Brandtsøgg

Bridging Tangible and Virtual Interaction: Rapid Prototyping of a Gaming Idea ................................................ 523
   Thov Reime, Heikki Sjöman, Achim Gerstenberg, Pekka Abrahamsson, and Martin Steinert

Can Interactive Art Installations Attract 15 Years Old Students to Coding? ................................................ 529
   Michail N. Giannakos, Finn Inderhaug Holme, Letizia Jaccheri, Irene Dominguez Marquez, Sofia Papavlasopoulou, and Ilse Gerda Visser

Digital Art Application Development: A Project to Increase Motivation in Systems Development Courses for Bachelor Students in Computer Engineering .................................................. 533
   Anniken Karlsen and Robin T. Bye

Pedal Tanks: A Multiplayer Exergame Based on Teamwork and Competition .................................................. 539
   Kristoffer Hagen, Stian Weie, Konstantinos Chorianopoulos, Alf Inge Wang, and Letizia Jaccheri

The Vocal Range of Movies - Sonifying Gender Representation in Film ....................................................... 545
   Marcello A. Gómez Maureira and Lisa E. Rombout
Workshops and Tutorials

Workshop: AI and Creativity in Entertainment ................................. 553
    Axel Tidemann and Agnar Aamodt

Creating Video Content for Oculus Rift: Scriptwriting for 360°-
Interactive Video Productions ...................................................... 556
    Mirjam Vosmeer and Ben Schouten

Game Mechanics Supporting Pervasive Learning and Experience in
Games, Serious Games, and Interactive & Social Media ..................... 560
    J.M. Baalsrud Hauge, T. Lim, S. Louchart, I.A. Stanescu, M. Ma,
    and T. Marsh

Making as a Pathway to Foster Joyful Engagement and Creativity in
Learning ............................................................................................ 566
    Michail N. Giannakos, Monica Divitini, Ole Sejer Iversen,
    and Pavlos Koulouris

Playful Experiences and Game Concepts for Multi-screen
Environments ..................................................................................... 571
    Jeroen Vanattenhoven and David Geerts

Quantum and Entertainment Computing .......................................... 575
    Nikitas M. Sgouros

Tutorial: Service-Oriented Architecture (SOA) Development for Serious
Games ............................................................................................... 578
    Maira B. Carvalho, Jun Hu, Francesco Bellotti,
    Alessandro De Gloria, and Matthias Rauterberg

Author Index ..................................................................................... 581
